

DAVINCI CAPITAL

CONSULTING SERVICES

DaVinci Capital will work with companies to develop a strategic plan for the business. The plan is intended to challenge each company to reach its full potential by effectively utilizing its people, instilling proper levels of accountability and capitalizing on the company's available resources.

The strategic plan will address areas such as management, market size and characteristics, competition, channels to market, intellectual property / barriers to entry, access to outside resources, depth of company infrastructure, financial resources and capital structure, and exit strategy if appropriate.
